

Get a goods movement reference

Present this goods movement reference at the port

GMR A 000T TFNO

Planned route

Europoort (Rotterdam) to Hull

Vehicle registration number

PKN96142

What happens next

For drivers

Present GMR at port

The driver will need to present this goods movement reference (GMR) at the port of departure.

Check if an inspection is needed

To find out if an inspection of their goods is needed the driver should use the [‘Check if you need to report for an inspection’ service \(opens in new tab\)](https://www.tax.service.gov.uk/driver-inspection-notification/start) (<https://www.tax.service.gov.uk/driver-inspection-notification/start>) before arriving at their port of arrival or departure.

For hauliers

Before the goods travel to the port of departure you will need to:

- give a copy of this GMR to the driver moving these goods – they will need to present this at the port
- give the driver details of the [‘Check if you need to report for an inspection’ service \(opens in new tab\)](https://www.tax.service.gov.uk/driver-inspection-notification/start) (<https://www.tax.service.gov.uk/driver-inspection-notification/start>)
- check for and correct any errors showing on the GMR dashboard

You can change any of the details for this GMR at any time before it is checked in. The barcode and reference will stay the same, so you only need to print or share this once.

You can also check for the latest status of this GMR on the dashboard.
